Portland, Oregon 97201

Documentation of NW MAC Decisions

Decision 14
August 10, 2013

National Preparedness Level	Northwest Preparedness Level
4	4

Strategic Intent:

- Support ongoing initial attack and provide support for replacements to meet long- term resource needs.
- Provide support for incidents with short-duration critical missions, through reallocation of resources.

PNW Incident Priorities (*set once per day*):

Priority	Fire	Unit	IC	AC/SGMAC	Rationale
1	Initial Attack				Initial Attack Always first Priority
2	Douglas Complex	OR-DFPA (732)	Sifford		Multiple values at risk; unsecured line with potential growth to the southwest; risk for reburn and spotting
3	Big Windy Complex	OR-MED	Schulte		Continue with big box strategy; firing operations delayed due to moisture
4	Whiskey Complex	OR-UPF	Williams		Firing operations continuing as conditions allow; high concern for industrial/timber lands
5	GC complex	OR-MAF	Watts		Good progress on containment; potential short duration
6	Green Ridge-Cascade Division complex	OR-DEF	Minton		Received measurable precipitation; TOC on 8/12
7	Colockum Tarps	WA-WFS	Nickey		Perimeter control completed; expected containment 8/11
